John I never thought you would be living in Louisiana with me. We had a heck of a ride form n y to la. It was crazy the car stuffed with all of our thing and 3 dogs and a cat . Even a blow out. And that dam state trooper he really wanted to lock me up because he smelt beer. But when I blow and it came back zero he was pissed. And when we got home we would keep laughing about it But we made it. I'm really glad that we had that time together. And as sick as you were you never complained. I'm very happy that Keith and Sherry got to spend time with you you will forever be loved and in our harts.

I can remember all the great times we shared. From the backyard BBQ's, sitting around listening to your Kiss albums, and working at Weld-built together. You taught me how to make the best sauerkraut ever. A used coffee can, a big bag of sauerkraut, and a beer. Cook on a BBQ all day. Once it absorbs all the beer Just add another beer to keep it from drying out. I still make it that way today. You taught me how to wire lights on the trucks. Working with you and Bobby definitely was the best part of working at Weld-built. Great times!! You were always kind, never once did I see you mad or angry. A happy go lucky guy who goes with the flow. So glad I was able to see you again just recently. Thank you for making every effort to get together again. You'll be missed. RIP Uncle John. We love you!!

John was a peaceful person. He never bothered anyone, and it did not take much to please him. I loved the earlier day when we all got together in our back yard for Bar-B-Que and John was always pleasant to have a conversation with. I will never forget Claudia and I taking him to Brooklyn to stay with us for the weekend and we took him to see the movie 2001 Space Odyssey and he loved it, he was about 9 or 10 years old. God rest his soul.
